Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only for the highest level of those boundaries.

1 A “*” following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2 In 1990, a census-of-enclaves population of ships at sea was allocated to census tracts with a “SE” suffix. An anchor symbol associated on the 1990 maps indicated a census-of-enclaves tract. These maps show a very small MCD associated as a census tract with the census tract number shown near the area.

3 A “#” following a block number indicates that the block number is repeated elsewhere in the map.

The diagram illustrates various types of boundaries and features in a landscape, categorized into three columns:

- Left Column:**
